Turn handwritten notes into text

Mit dem Aegir schreiben Sie direkt in die Cloud - Livescribe Aegir

Aegir (pronounced "ay-geer") is named after the Norse Sea God, paying tribute to the Swedish heritage of the company. Aegir series will have two fashionable designs inspired by their aquatic namesakes: **Marlin and Dolphin.**

Teal Dolphin

Our Lightest and Slimmest Smartpen Yet

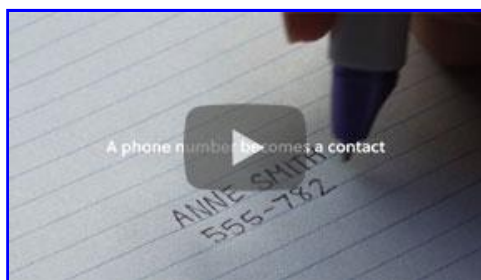

Experience the traditional benefits of pen and paper combined with all the power of digital notes. The Aegir pen uses Bluetooth technology to automatically sync data with mobile (iOS and Android) and desktop* devices using the free Livescribe+ companion app.

*Support for Windows coming soon and macOS to follow.

- Digitize your handwritten notes effortlessly. At almost the same size and weight as a ball-point pen, digitally transforming your handwriting has never been easier, or more fashionable
- Record audio using the Livescribe+ app while you write to add voice to your notes. Play back when needed to recreate key moments
- Write now, sync later. Capture every moment – The Aegir smartpen can store up to 1,200 pages of writing so you can sync later to your device.
- Find the important stuff. Use the Livescribe+ app to search your handwritten notes and find what you need, when you need it.
- Share notes in the format that you want (Text/PDF/image/MS Word) to the cloud service that you use (Dropbox/Google Drive/MS OneNote/Evernote). Digitize across boundaries.
- Transcribe and edit. The Aegir smartpen can recognize 22 languages in your handwriting and digitally transcribe in real-time so you can edit your digital notes instantly.
