

PLATINET DRAWING TABLET 12-INCH

Platinet drawing tablet is the perfect solution for children who like to draw, as well as all those who can not imagine life without handwritten notes. It protects the environment, eliminating the need to use traditional paper.

SCROLL, DRAW, NOTES

The tablet has a specially adapted screen with low energy consumption, which, in combination with the included stylus, allows you to take handwritten notes and drawings just as comfortably as on paper - the written text appears on the screen immediately, and the pressure is also distinguished.

The button under the screen allows you to delete the entire screen content with just one click.

One Erase Button

Reduce Visual Fatigue

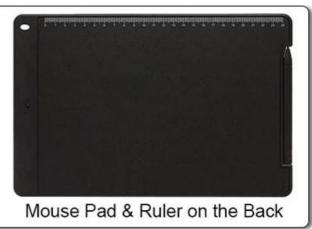

Screen Lock Switch

NOTES ALWAYS SAFE

The tablet has a special lock button that prevents accidental erasure of content drawn on the screen for example during transport in a backpack or a suitcase.

MOUSE PAD

The large, 12-inch surface means that after turning the screen down, the device can function as a convenient mouse pad. It is a functional gadget that will work on any desk.
