

+ Bluetooth-Speaker + Dusch-tauglich (IPX5)

# apollo alexa

Stay connected everywhere.

With Bluetooth connectivity and a unique water and impact resistant design, Apollo Voice stays connected to your smartphone everywhere that you go for a completely cable-free Alexa experience.

## Moves with you.

Designed to move with you, a high-performance rechargeable 8hr battery means that you can get the latest news updates while you shower, stream music with improved audio performance and check-in with a call or message to family members without worrying about where the nearest plug is.

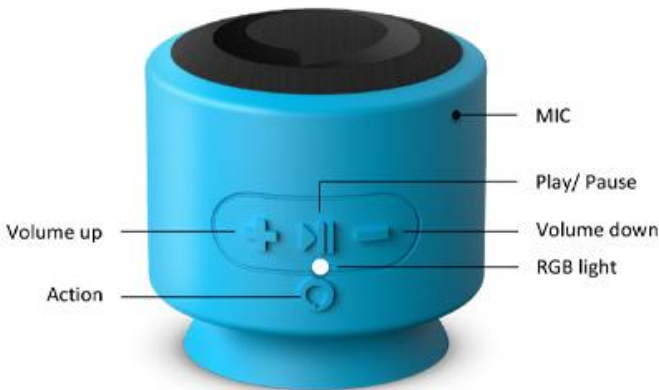

**IPX5 Rated**

## More than just a speaker.

More than just a nifty hands-free feature, the patented sucker-cup silicone casing delivers impressive acoustics by using the surrounding environment to generate bigger bass and balanced clarity.

### Wireless audio to mobile

Turn on the speaker. The Bluetooth Enabled mobile Devices will automatically search for available Bluetooth devices. Select Apollo Alexa and the devices will connect to the The Apollo Alexa.

- Amazon Alexa AMA compliant with companion APP
- iPX5 Water-resistant Speaker
- Music and calls
- A perfect portable Amazon Alexa speaker PTT device
- Music Power : Music loudness no less than 8W

### Battery & Power

- The Apollo Alexa battery indicator will appear when it's connected to mobile (only available on iOS). The battery lasts 8 hours at 70% volume level. You can charge it with the provided battery charger cable, which plugs into your computer's USB drive.

BATTERY LIFE	8 hours at 70% Volume Level
BATTERY TYPE	Lithium-ion polymer
RADIO TRANSCEIVER	Bluetooth 4.2

### Environmental Requirements

- OPERATING TEMPERATURE : -10° to 40° c
- WATER-RESISTANT : Speaker is water resistant. It is, however, rain, splash, and sweat-proof. Device is splash proof, and should not be submerged into the water. It shouldn't be worn while swimming.

OPEARATING TEMPERATURE	-10° to 40° c
WATER-RESISTANT	Device is splash proof, and should not be submerged into the water.
