HIGHEST QUALITY AND SAFETY

All blender elements were made of a health-safe material adapted to contact with food. The blade, chalice and lid have been designed in such a way that their cleaning is as easy as possible in every situation. The blade safety mechanism eliminates the possibility of accidentally starting it.

USE ANYWHERE

Built-in rechargeable battery with a capacity of 4000 mAh allows you to use the device anywhere, such as immediately after training in the gym. This allows you to eat freshly blended meals. A standard MicroUSB connector is used to charge the battery - the same you charge your smartphone.
