What makes **POCKETALK** special?

Accurate

There's no point in any translator if the translations don't make sense. Pocketalk selects the **best combination of engines** for each language, while our **noise-cancelling mic** captures each syllable clearly, even in noisy places.

Fast

Don't let your opportunities slip away while you fumble with your phone. With Pocketalk, you're **just one button away** from communicating in 75 languages. With 4G & Wi-Fi connectivity, translating is lightening-fast.

Connected, with unlimited data

No need to find Wi-Fi, buy a travel SIM or change settings on your phone. The **embedded SIM** offers 2 years of unlimited data in 133 countries. **No additional setup or monthly fees.** And if you're wondering, Pocketalk also connects to Wi-Fi.

Protected

Protecting your personal information and data is our priority too. Conversations are not stored online, only on the device, and you can choose to **automatically delete** your conversations. Moreover, unlike smartphones Pocketalk does **not require personal information** or a personal account to use.
