GAME PODS

Gaming TWS headphones with RF Dongle

The gaming headset for real gamers with perfect sound and dual connectivity. The headset can be simultaneously connected via a radio-frequency dongle with USB-C connector and Bluetooth, allowing you to play with a VR headset or gaming console while taking calls without interruption.

- Dual connectivity - via RF (Radio Frequency) Dongle and Bluetooth
- Radiofrequency Dongle (USB-C) - Stable and powerful connection to VR glasses or gaming consoles
- Bluetooth - connect to other devices and answer phone calls while playing
- LC3 codec - low latency and instant audio response
- Enables pass through charging - recharge your gaming device via RF dongle while playing
- ENC technology - clear calls without ambient noise
- IPX4 - splash proof
- Touch control
- 24 h playback time (6 h headphone + 18 h case)
- LED backlight for headphones, dongle and case

Product code **FIXPDS-G-WH**

Color options:

NODS

Open-ear wireless stereo headphones

The open design for comfortable listening without blocking ambient sounds is ideal for sports and safe movement. The lightweight ergonomic design adapts to each ear and allows for comfortable all-day wear that supports up to 24 hours of battery life with the charging case.

- OWS (Open Wearable Stereo) open-ear headphones
- Comfortable fit and ergonomic design
- Design protects eardrums from damage caused by loud music
- Naturally transparent function
- Instant pairing via Bluetooth
- Each earbud can be used separately
- IPX5 water resistance
- Integrated microphone with ENC for clear calls
- Touch control
- Long battery life up to 24 hours – 6 hours headphones + 18 hours case
- USB-C charging port

PODS

True Wireless headphones

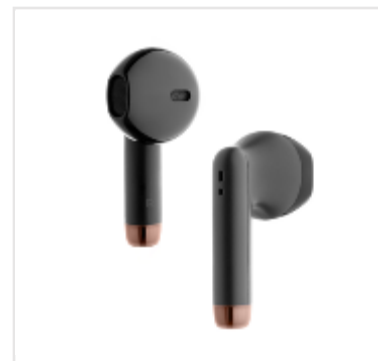

Pods have a minimalist design of the headphones and the charging case itself. The shape of the headphones fits perfectly in the ear and holds firmly even during sports activity. A big advantage is their small size and their weight.

- Hall Switch - instant pairing
- Intelligent Touch Control - control headphones just with tap on the handset
- Master Slave mode - each headphone works independently
- Integrated microphone
- Siri and Google Assistant support
- Battery life: 5 hours headphones / up to 15 hours with charging case
- Charging case with a USB-C cable
- Bluetooth version: BT 5.3 (range up to 15m)

PODS 2

Wireless headphones

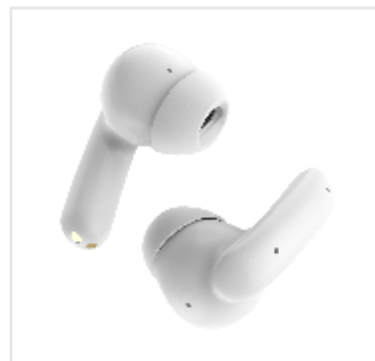

Wireless headphones with two types of earbuds – classic "earbuds" and two sizes of earplugs. The shape of the headphones fits perfectly in the ear and stays securely in place even during sports activities. Stable transmission and the option to use each earbud separately ensure a pleasant listening experience.

- Two earbud options – ear tips or earbuds
- Bluetooth 5.4 – stable wireless transmission
- Up to 18 hours of battery life (4 hours for earbuds + 14 hours for case)
- USB-C charging
- Touch controls
- Siri and Google Assistant support
- Ergonomic shape

TALK PRO

Bluetooth open-ear headset with ENC

Wireless open-ear handset for safe hands-free calling. The headset does not insert directly into the ear so you can still hear ambient sounds while making calls and protect your hearing at the same time.

- Open-ear design of headset - naturally transparent function
- Two ENC microphones - clearer calls without ambient noise
- Battery life: up to 10 hours
- Multipoint: pairing with two devices simultaneously
- The lightweight design with a flexible hook - for both left and right ear
- Bluetooth version: BT 5.2 (range up to 20m)
- Touch control for calls and volume
- Mute button
- Support for Siri and Google Assistant
- USB-C charging port

MAGPOWERSTATION ALU

3-in-1 wireless charging stand with Qi2.2 standard

The new generation wireless charging stand allows you to charge up to three devices simultaneously – your phone, Apple Watch, and wireless headphones. The main charging surface supports the Qi2.2 charging standard and can charge all phones with this technology at up to 25W. Integrated magnets ensure precise phone attachment, while the raised design does not obstruct the camera area. The secondary surface is designed for TWS headphones and other devices. The third surface allows for fast charging of Apple Watch with 5W power. The premium aluminum body with silicone charging surfaces ensures durability, stability, and protection for your devices.

- Qi2.2 standard (Magnetic Power Protocol) – wireless charging up to 25W
- Compatibility: iPhone 12 and newer, and all phones with Qi2 support
- Fast charging for Apple Watch – 5W
- Compatible with MagSafe cases
- Durable aluminum body
- Soft-touch surface of charging areas
- Recommended power adapter: min. 45W PD

TYPEE ENDURO

Case with USB-C keyboard for Apple iPad

The USB-C keyboard case for iPad protects your device while expanding its functionality for work and entertainment. Thanks to the USB-C port connection, it works immediately. The keyboard is equipped with two USB-C ports – a power port and a data transfer or headphone port. A precise trackpad with gesture support, a range of function keys, and an adjustable angle of 60-170° ensure comfortable everyday use. The durable PU leather construction, magnetic closure, sleep/wake function, and stylus holder enhance comfort in everyday use.

- Case with integrated keyboard for iPad
- USB-C connection – instant operation without pairing
- Trackpad with gesture support (5-point control)
- Tilt angle 60-170°
- Stylus holder
- Drop-tested durability
- 2x USB-C ports – separate for power and data/audio

TAG DUAL

Locator with Find My and Find Hub support

The Bluetooth locator with support for Apple Find My and Google's Find Hub makes it easy to keep track of or find lost items. The locator easily pairs with the app, where you can immediately track its location. It also features an audible alert for even faster searching. The locator is powered by a replaceable CR2032 battery with a long life for reliable item tracking. It comes with a durable strap for attaching to keys, a purse, or a backpack.

- Bluetooth locator certified by Apple Find My and Google's Find Hub apps
- Control button for easy pairing with the app
- Audible alert
- Attachment strap included
- Replacable CR2032 battery with up to 1 year battery life
- Compact and lightweight design
- Bluetooth 5.4
