

PRESENTATION

A person wearing large black headphones is shown from the back, looking at a football game on a screen. The background is a blurred image of a football player in a white and red uniform running with the ball on a green field.

WE ARE
MEE audio®

Founded in 2005 by a group of audio enthusiasts with the goal of making high-fidelity portable audio attainable for every music listener, MEE audio has been winning acclaim from casual listeners and audiophiles around the world for over 15 years.

Since 2013, we have expanded our mission to improving quality of life for the hearing impaired and those around them. Specializing in home audio connectivity solutions, professional in-ear monitors, and hearing protection, MEE audio is committed to providing the best user experience, performance, and value with every product.
